

COMMON AREA PLANTINGS REQUEST FORM

REQUEST BY: _____

ADDRESS: _____

TELEPHONE #: _____ DATE: _____

Before putting any plants in common areas, you must receive Board approval. This is to insure compatibility and adaptability of chosen planting(s) to the site as well as aesthetic considerations. The Board reminds you that "common areas" are just that, common to all owners/residents.

- Please give a written description of your requested plantings including mature size of plant(s), dimension of plant bed(s) (if appropriate), and any special upkeep the plant(s) will require by you and, subsequently, future owners of your unit.

NOTE: You will be held responsible for maintaining your plant(s). This includes removing dead plants and manicuring as needed (for visibility and appearance).

- Please give specific locations you intend for the plant(s), such as: at front left side of unit or front yard area, etc.

Upon receipt of this form, signed and dated by you, the Board will consider the request. You will be notified as to the final decision by the Board within 60 days.
